Index

March–December, 1978

Abdomen, blunt trauma to, June, 211–222
  diagnosis of, June, 213, 215, 217–220
  follow-up for, June, 221
  history and physical examination in, June, 216–217
  in pregnancy, June, 214–215
  mechanics of, June, 211–212
  surgical indications in, June, 220–221
injuries of, penetrating vs. non-penetrating, June, 184–185
of multiply injured patient, assessment of, June, 183–185
Accountability, of nurse practitioners, Dec., 566
Acenocoumarol, Sept., 495
Acetazolamine, Sept., 490
Acetyldigitoxin, Sept., 476
Acidifying agents, Sept., 493
Acidosis, in blunt neck trauma, June, 195
Administration, nursing, leadership theory in, March, 138–153
  role of, during nursing strike, March, 127–128
  in collective bargaining, March, 111–118
  in management, March, 121–122
Adolescent(s), cancer in, chemotherapy for, effect on behavior, June, 331–333
  effect on body image, June, 324–326
  effect on ego, June, 330–331
  effect on intelligence, June, 326–327
  effect on separation-individuation process, June, 327–330
  nursing care for, June, 319–336
Adriamycin, for female reproductive system cancer, nursing care plan for, June, 364–366
for Hodgkin disease, June, 293
for lung cancer, June, 312
Age, gestational, assessment of, March, 13–22
Agnosia, Sept., 549
Air embolism, Swan-Ganz catheter use and, Sept., 406
Aldactazide, Sept., 493
Aldactone, Sept., 492–493
Allied nursing staff, definition of, March, 97
Ambulatory electrocardiography, Sept., 434, 437–448
  case histories of, Sept., 440–444
  in pacemaker monitoring, Sept., 444–445
  indications for, Sept., 437
  nursing implications in, Sept., 445–446
  technique of use, Sept., 438–440
Aminometradine, Sept., 494
Ammonium chloride, as diuretic, Sept., 493
Amniocentesis, in fetal monitoring, Dec., 602
Anemia, apnea with, March, 32–33
Angina, Prinzmetal's, intra-aortic balloon pumping in, Sept., 521
Angiography, coronary, intra-aortic balloon pumping in, Sept., 526–528
Anisindione, Sept., 495
Ann Arbor clinical staging, of Hodgkin disease, June, 285
Antiarrhythmic agents, Sept., 475–486
Anticoagulants, Sept., 494–497
Antifibrillatory agents, Sept., 475–486
Antihypertensive agents, Sept., 497
Aphasia, Sept., 543–554
  disorders accompanying, Sept., 548–549
  nursing care in, Sept., 550–553
  types of, Sept , 546–547
Apnea, in premature infant, March, 29–37
  differential diagnosis of, March, 30–34
  heat-induced, March, 26
  incidence and symptoms of, March, 29–30

Apnea (*Continued*)
in premature infant, pathogenesis of, March, 30–31
treatment for, March, 34–36
in sick neonate, evaluation of, Dec., 606
Apraxia, Sept., 548–549
Arrhythmia(s), pharmacologic treatment of, Sept., 475–486
relationship to cardiac symptoms, Sept., 446–447
Swan-Ganz catheter use and, Sept., 404–405
ventricular, ambulatory electrocardiography of, Sept., 443–444
Arterial blood gases, in sick neonate, evaluation of, Dec., 605–606
Arterial pulse(s), examination of, Sept., 428–429
Artifact, and measurement error, Dec., 581–582
Asphyxia, and necrotizing enterocolitis, March, 40
Assessment, initial, of multiply injured patient, June, 177–190
of blunt neck trauma, June, 193
of burned patient, June, 224–225
of woman receiving CMF for breast cancer, June, 343
of woman with reproductive system cancer, June, 352–367
Atrial gallop, auscultation of, Sept., 426
Atrial pressure, measurement of, Sept., 391–392
Atropine, Sept., 482–483
in failure to pace, Sept., 412
Auscultation, in blunt abdominal trauma, June, 216
Autotransfusion, future applications of, June, 242
nursing implications of, June, 243–244
of trauma patient, June, 235–245
advantages of, June, 239–240
case history of, June, 241–242
complications of, June, 241
indications for, June, 235–239
precautions in, June, 240–241

Bacillus Calmette-Guerin, methanol extract residue of, for colon cancer, June, 373–379
in cancer immunotherapy, June, 369–380
Bargaining, collective. See *Collective bargaining.*
Bathing, of premature infant, March, 69–70
BCG. See *Bacillus Calmette-Guerin.*
BCNU, for Hodgkin disease, June, 292
Belladonna alkaloids, Sept., 482–483
Bendroflumethiazide, Sept., 487
Benzthiazide, Sept., 487
Bicycle ergometry, Sept., 432
Bifocal demand pacemakers, failure to pace of, Sept., 416–417
Bigeminal pulse, Sept., 429
Biocompatibility, of artificial heart, Dec., 632
Bioengineering, health care and, Dec., 592–594
nursing and, Dec., 589–595
Biofeedback, in erythromelalgia, Dec., 625–630
in hypertension control, Dec., 569
in stress management, Dec., 651
theoretical basis of, Dec., 627–628
Bioinstrumentation, Dec., 559–640
applications by nurse practitioners of, Dec., 561–571
basic principles of, Dec., 562–564
effect on nursing, Dec., 564–568
in external life support, Dec., 638–639
in neonatal care, Dec., 597–609
disadvantages of, Dec., 607–608
in patient care, Dec., 634–635
noninvasive, measurement error in, Dec., 573–587
of hemodialysis, Dec., 611–624
problems and solutions in, Dec., 632–634
Biotelemetry, Dec., 563–564
Birth, term, definition of, March, 14
Birth weight, assessment of, March, 13–22
Bishydroxycoumarin, Sept., 495
Bladder distention alarm system, transcutaneous, Dec., 568
Blenoxane, for Hodgkin disease, June, 292
Bleomycin, for Hodgkin disease, June, 292
for lung cancer, June, 313
Blood gases, arterial, in sick neonate, evaluation of, Dec., 605–606
Blood pressure, in sick neonate, measurement of, Dec., 604
Blood transfusion, for anemia with apnea, March, 35
Blood volume, in apnea, March, 32–33
Blood vessels, great, injuries to, Sept., 540
Body image, of adolescent, chemotherapy effect on, June, 324–326
of woman with reproductive system cancer, chemotherapy effect on, June, 359–360
Body temperature, regulation of. See *Thermoregulation.*

Bones, of multiply injured patient, assessment of, June, 185–188
Bowel, ischemia of, and necrotizing enterocolitis, March, 40
Breast cancer, female, adjuvant chemotherapy for, nursing care in, June, 337–349
systemic effects of, June, 341–342
patient education about, June, 344
Breast milk, composition of, March, 48
expression of, manual, March, 52
preparation for, March, 49–51
pumps for, March, 52–54
storage and handling of, March, 59
vs. prepared, for necrotizing enterocolitis, March, 44
Breast pump(s), March, 52–54
Breast-feeding, in necrotizing enterocolitis, March, 44
Lact-Aid supplementer for, March, 56–59
nursing role in, March, 54–56
of premature infants, March, 47–61
Breathing, periodic, apnea vs., March, 30
Bretylium tosylate, Sept., 484–485
Brief therapy, in crisis intervention, Dec., 657–663
methodology of, Dec., 659–660
relaxation techniques in, Dec., 660–661
Brooke formula, for fluid replacement, June, 229
Brown fat, in neonatal thermoregulation, March, 23–24
Burns, and stress, June, 231–232
assessment of, June, 224–225
complications of, June, 233
emergency nursing care of, June, 223–234
extension of, June, 223–224
assessment of, June, 227–228
fluid and electrolyte balance in, June, 225–231
respiratory and circulatory problems in, June, 224
therapy for, developments in, June, 233
wound care in, June, 232
By-laws, organizational, for Nursing Services department, March, 91–102

Calibration, definition of, Dec., 563
loss of, and measurement error, Dec., 582
Cancer, chemotherapy for, nursing role in, June, 267–380. See also *Chemotherapy.*
colorectal, immunotherapy for, June, 372
Cancer (*Continued*)
immunotherapy for, methanol extract residue of bacillus Calmette-Guerin in, June, 369–380
in adolescent, nursing care in, June, 319–336
of breast. See *Breast cancer.*
of female reproductive system, nursing process and chemotherapy for, June, 351–368
of lungs. See *Lung cancer.*
Carbonic anhydrase inhibitors, Sept., 489–490
Cardiac arrest, witnessed, cardiopulmonary resuscitation for, Sept., 510–512
Cardiac catheterization, Swan-Ganz catheter use vs., Sept., 399
Cardiac contusion, Sept., 539
Cardiac glycosides, Sept., 473–475
Cardiac output, assessment of, Sept., 390–392
in burns, June, 224
in sick neonate, measurement of, Dec., 604
Cardiac pacing, temporary, malfunctions of, Sept., 409–422. See also *Failure to pace.*
Cardiac patients, care of, drugs for, Sept., 473–497
obese, nursing interventions with, Sept., 449–456
Cardiac Rehabilitation Unit, patient instruction in, Sept., 469
Cardiac tamponade, Sept., 540
diagnosis of, Swan-Ganz catheter in, Sept., 394
Cardiopulmonary arrest, unwitnessed, cardiopulmonary resuscitation for, Sept., 500–510
Cardiopulmonary resuscitation, basic, Sept., 499–512
Cardiotachometry, in fetal monitoring, Dec., 601
Cardiotonics, Sept., 473–475
Cardiovascular disease, symptoms of, Sept., 423–424
Cardiovascular monitoring, noninvasive, Sept., 423–435
history and observations in, Sept., 423–424
of sick neonate, Dec., 603–604
Cardiovascular system, of multiply injured patient, assessment of, June, 180–181
Casein, in milk, importance of, March, 48
Catheter, Swan-Ganz. See *Swan-Ganz catheter.*
Catheterization, in blunt abdominal trauma, June, 213

Cathode ray tubes, measurement error with, Dec., 584
CCNU, for Hodgkin disease, June, 292
for lung cancer, June, 313
CCU, patient instruction in, Sept., 464–469
Central nervous system, depression of, in apnea, March, 30, 32–34
treatment for, March, 35–36
Central venous pressure monitoring, Sept., 391
CHEMFET, Dec., 635
Chemotherapy, and fluid loss, June, 353–354
combination protocols in, June, 275
for Hodgkin disease, June, 282–283, 292–295
effects of, on adolescent behavior, June, 331–333
on psychosocial development, June, 319–336
somatic, June, 353–359
for adolescent osteogenic sarcoma, June, 321–322
for female breast cancer, nursing care in, June, 337–349
systemic effects of, June, 341–342
for female reproductive system cancer, June, 351–368
for leukemia, June, 320
for lung cancer, June, 309–317
patient education about, June, 311, 315–317
side effects of, June, 310–311, 315
types of, June, 312–314
for outpatients, June, 277–278
nature of, June, 273–275
nursing role in, June, 267–380
patient participation in, June, 278–279
sequelae of, nursing management of, June, 276–279
toxicity of, June, 274
Chest, flail, June, 179; Sept., 536
injuries to, June, 201–210
Chest trauma, Sept., 533–541
evaluation of, Sept., 534–535
Children, sexually abused, group treatment for, Dec., 701–705
Chlorazinil hydrochloride, Sept., 494
Chlormerodrin, Sept., 489
Chlorothiazide, Sept., 487
Chlorthalidone, Sept., 487
Cinchonism, Sept., 477
Circulatory system, care of, in burns, June, 224
Citrovorum factor, for lung cancer, June, 313
Clinical supervisor(s), role of, during nursing strike, March, 127–128
Clinical supervisor(s) (*Continued*)
role of, in management, March, 119–129
traditional, March, 121–122
CMF, for female breast cancer, June, 340
nursing assessments and interventions with, June, 343
Collective bargaining, in health care institutions, history of, March, 113
nursing administrator role in, March, 111–118
process of, March, 113–115
Colon, cancer of, immunotherapy for, June, 372–379
Colorado growth curves, March, 15
Communication, difficulties in, for renal transplant patient, March, 160–161
Consultant nursing staff, definition of, March, 97
Contingency model of leadership effectiveness, March, 140
in group maturity level assessment, March, 143–149
in head nurse selection, March, 151–152
Continuous positive airway pressure, for apnea, March, 35
Contractures, burns and, June, 233
COPP, for Hodgkin disease, case history of, June, 288–289
Coronary angiography, intra-aortic balloon pumping in, Sept., 526–528
Coronary Care Unit, patient instruction in, Sept., 464–469
Coronary sinus, pacemaker electrode displacement into, Sept., 420–421
Coronary teaching program, Sept., 457–472
case study of, Sept., 461–472
development of, Sept., 457–460
nursing guidelines for, Sept., 460, 462–463
Co-therapy, role in multiple family group therapy, Dec., 693–697
transference and countertransference in, Dec., 689–690
Coumarin compounds, Sept., 495–496
Counseling, group, for sexually abused children, Dec., 701–705
Countertransference, in multiple family group therapy, Dec., 689–690
CPAP. See *Continuous positive airway pressure.*
Craniocerebral system, of multiply injured patient, assessment of, June, 181–183
Crisis, definition of, Dec., 657–658
Crisis intervention, brief therapy in, Dec., 657–663
directive psychotherapy in, Dec., 661–662

Crisis intervention (*Continued*)
in trauma, June, 251–253
Critical care unit, nursing leadership in, March, 131–138
CRU, patient instruction in, Sept., 469
Culdocentesis, in blunt abdominal trauma, June, 220, 221
CVPP, for Hodgkin disease, case history of, June, 287–288
Cyclocumarol, Sept., 495
Cyclophosphamide, for Hodgkin disease, June, 292
for lung cancer, June, 312
Cyclothiazide, Sept., 487
Cytoxan, data on, June, 317
for Hodgkin disease, June, 292
for lung cancer, June, 312
Cytoxan-Methotrexate-5-Fluorouracil protocol. See *CMF.*
Cytoxan-Oncovin-Prednisone-Procarbazine protocol, for Hodgkin disease, June, 288–289
Cytoxan-Velban-Prednisone-Procarbazine protocol, for Hodgkin disease, June, 287–288

Dacarbazine, for Hodgkin disease, June, 293
Dallas formula, for fluid replacement, June, 230
Darenthin, Sept., 484–485
Decompensation, psychologic, in renal transplant patient, March, 163–165
Defense mechanisms, in coping with stress, June, 249
Delivery room, equipment in, assessment of, March, 78
Dementia, aphasia vs., Sept., 549
Department of Nursing Services, development of, March, 86–87, 91–102. See also *Nursing Services, department of.*
Depersonalization, of renal transplant patient, March, 159–160
Depression, in adolescence, chemotherapy and, June, 332–333
Deslanoside, Sept., 476
Dextrose, as osmotic diuretic, Sept., 492
Dialysate, composition of, Dec., 615
delivery system for, Dec., 616–617
Dialysis, renal, description of, Dec., 638–639. See also *Hemodialysis.*
single needle, Dec., 620–623
Dialyzer, function of, Dec., 614
Diaphragm, injuries to, Sept., 539
Dichlorphenamide, Sept., 490
Digalen, Sept., 476
Digifolin, Sept., 476
Digilanid, Sept., 476
Digitalis, Sept., 474–475
preparations and dosages of, Sept., 476
toxicity of, Sept., 474–475
Digitoxin, Sept., 476
Digoxin, Sept., 476
Dilantin, Sept., 482
Diphenadione, Sept., 495
Diphenylhydantoin, Sept., 482
Dislocations, types of, June, 188
Disopyramide, Sept., 485–486
Display (readout) devices, electronic, function of, Dec., 563
in measurement error, Dec., 583–585
Diuretics, Sept., 486–494
carbonic anhydrase inhibiting, Sept., 489–490
mercurial, Sept., 488–489
miscellaneous, Sept., 494
osmotic, Sept., 491–492
steroid antagonist, Sept., 492–493
thiazide, Sept., 486–488
xanthine, Sept., 490–491
DNA, cancer chemotherapy effects on, June, 275, 357–359
Doxyrubicin, for Hodgkin disease, June, 293
for lung cancer, June, 312
Drug abuse, by multiply injured patient, June, 189
Drug therapy, rational approach to, June, 271–272
Dynamic load testing, Dec., 637–638
Dysarthria, Sept., 548
Dysphonia, Sept., 548

Echocardiography, Sept., 432
Education, for critical care leadership, March, 132–138
of nursing staff, responsibility for, March, 99
of patient. See *Patient education.*
Egnell breast pump, March, 52–54
Ego, of adolescent, chemotherapy effect on, June, 330–331
Ejection click, auscultation of, Sept., 427
Electrical current, leakage of, and measurement error, Dec., 580–581
Electrocardiography, Sept., 430–431
ambulatory, Sept., 434. See also *Ambulatory electrocardiography.*
in fetal monitoring, Dec., 601–602
in intra-aortic balloon pumping, Sept., 520–521
measurement error in, Dec., 584
telemetric, Dec., 569

Electrode(s), disorders of, in measurement error, Dec., 578–580
pacemaker, displacement of, Sept., 418–421
fracture of, Sept., 414–416
positions in ambulatory electrocardiography, Sept., 439
Electrolytes, loss of, in burns, June, 225–227
replacement of, in burns, June, 227–231
Electromagnetic interference (EMI), in failure to pace with spike absent, Sept., 416–417
Electronic display device(s), function of, Dec., 563
Emphysema, mediastinal, June, 201–210
esophageal injury with, June, 206–207
tension pneumothorax with, June, 202–206
Employment, of renal transplant patient, March, 163
Endoxan, for Hodgkin disease, June, 292
Enterocolitis, necrotizing. See *Necrotizing enterocolitis.*
Environment, effect on leadership behavior, March, 141–152
Ergometry, bicycle, Sept., 432
Erythromelalgia, biofeedback in, Dec., 625–630
Esophagus, injury to, mediastinal emphysema with, June, 206–207
Ethacrynic acid, Sept., 494
Ethoxzolamide, Sept., 490
Ethyl biscoumacetate, Sept., 495
Exercise testing, Sept., 432
External life support, bioinstrumentation in, Dec., 638–639
Feeding(s), in necrotizing enterocolitis, March, 43–44
of premature infant, March, 68
Fetal heart rate, monitoring of, Dec., 600–602
Fetal hemoglobin, changes in, Dec., 599
Fetus, growth of, standards for, March, 14–16
monitoring of, equipment for, Dec., 600–602
FHR (fetal heart rate), monitoring of, Dec., 600–602
Fibrillation, pharmacologic treatment of, Sept., 475–486
Fick principle, Sept., 392
Filling pressure, of heart, assessment of, Sept., 390–391
Flail chest, June, 179; Sept., 536
Fluids, loss of, chemotherapy in, June, 353–354
in burns, June, 225–227
maintenance of, in blunt abdominal trauma, June, 212
in blunt neck trauma, June, 195–196
in burns, June, 227–231
Flumethiazide, Sept., 487
5-Fluorouracil, mechanism of action of, June, 341
Folonic acid, for lung cancer, June, 313
Foreign body, renal transplant as, March, 166
Fracture(s), of larynx, June, 180
of ribs, Sept., 535
of sternum, Sept., 536
types of, June, 186
Frequency response, of instruments, definition of, Dec., 575
Furosemide, Sept., 494
Face, of multiply injured patient, assessment of, June, 183
Failure to pace, Sept., 409–422
diagnosis and correction of, Sept., 413–422
immediate measures in, Sept., 410–413
of bifocal demand pacemakers, Sept., 416–417
Family(ies), multiple, group therapy for, with tri-therapist team, Dec., 685–699
of renal transplant patient, problems of, March, 161–162
of trauma patient, behavioral response of, June, 251–252
Fat, in neonatal thermoregulation, March, 23–24
"Gain," definition of, Dec., 563
Gastrointestinal system, chemotherapy effect on, June, 354
Gestation, length of, March, 13–22
Gitalin, Sept., 476
Glucocorticoids, in failure to pace with spike present, Sept., 421–422
Glucose, as osmotic diuretic, Sept., 492
Great vessels, injuries to, Sept., 540
Group process, and stress, Dec., 669–670
influence on unit milieu, Dec., 665–671
"lack" of, Dec., 670
Group therapy, multiple family, with tri-therapist team, Dec., 685–699
Growth, intrauterine, standards for, March, 14–16

Head nurse(s), role of, during nursing strike, March, 127–128
in management, March, 119–129
traditional, March, 122
selection of, leadership theory in, March, 150–152
Health, holistic. See *Holistic health.*
Health care, bioengineering and, Dec., 592–594
technologic revolution in, Dec., 589–592, 631–632
impact on nursing, Dec., 591–592
Health care institutions, in collective bargaining, March, 113–115
Heart, activity during sleep, Sept., 444. See also entries under *Cardiac.*
artificial, problems with, Dec., 632–634
chemotherapy effect on, June, 355
evaluation of, diagnostic aids in, Sept., 430–434
methods of, Sept., 424–427
injuries to, Sept., 539–540
performance of, assessment of, Sept., 390–392
Heart attack. See *Myocardial infarction.*
Heart disease, causes of, Sept., 450–451
relationship to obesity, Sept., 449–451
stages of, Sept., 453–455
Heart failure, assessment of, Swan-Ganz catheter in, Sept., 393
Heart rate, fetal, monitoring of, Dec., 600–602
in sick neonate, measurement of, Dec., 604
Heart sounds, auscultation of, Sept., 425–427
Hemodialysis, bioinstrumentation of, Dec., 611–624
components of system for, Dec., 614–620
history of, Dec., 611–613
principles of, Dec., 613
Hemoglobin, fetal, changes in, Dec., 599
level of, in apnea, March, 32–33
Hemorrhage, in blunt abdominal trauma, control of, June, 212–214
Hemothorax, Sept., 537–538
autotransfusion for, June, 236
Heparin, Sept., 496
Hexamethylmelamine, for lung cancer, June, 314
Hodgkin disease, June, 281–300
case history of, June, 287–289, 296–299
definition of, June, 285–287
diagnosis of, June, 290–291
incidence of, June, 289–290
outpatients with, care of, June, 299
staging of, June, 284–285
treatment of, June, 291–299
Hodgkin disease (*Continued*)
treatment of, combination chemotherapy for, June, 282–283, 292–295
COPP protocol in, June, 288–289
CVPP protocol in, June, 287–288
MOPP protocol in, June, 281–283, 287–288, 296–299
in adolescence, June, 321
Holistic health, and stress, Dec., 653
concept of, Dec., 643–646
nurse as practitioner of, Dec., 643–655
spiritual aspects of, Dec., 645–646
traditional medicine vs., Dec., 646–647
Holter monitor electrocardiography, Sept., 434. See also *Ambulatory electrocardiography.*
Hydrochlorothiazide, Sept., 487
Hydroflumethiazide, Sept., 487
Hypertension, control of, biofeedback in, Dec., 569
drugs for, Sept., 497
Hyperthermia, of neonate, March, 26
Hypocalcemia, and apnea, March, 33–34
Hypoglycemia, and apnea, March, 33–34
Hypothermia, of neonate, March, 24–26
Hypovolemia, diagnosis of, Swan-Ganz catheter in, Sept., 393
Hypoxemia, apnea vs., March, 30–31
Hypoxia, and necrotizing enterocolitis, March, 40–41
in apnea, March, 35
Hysteresis, Dec., 576

IABP. See *Intra-aortic balloon pump(ing).*
Imidazole carboxamide, for Hodgkin disease, June, 293
Immobilization, for blunt neck trauma, June, 195
Immunotherapy, cancer, methanol extract residue of bacillus Calmette-Guerin in, June, 369–380
in colorectal cancer, June, 372
Incubator(s), in neonatal thermoregulation, March, 27
Inderal, Sept., 480–481
Infant(s), care of, March, 1–84. See also *Neonatal care.*
premature. See *Premature infant(s).*
Instrumentation, biomedical. See *Bioinstrumentation.*
electronic, noninvasive, measurement error in, Dec., 573–587
Instruments, characteristics of, Dec., 575–576
classification of, Dec., 574
used by nurse practitioners, Dec., 566–567

Intelligence, of adolescent, chemotherapy *effect on, June,* 326–327
Intensive Care Unit, mobile, June, 261–262
Intra-aortic balloon pump(ing), Sept., 513–530
action and physiologic effect of, Sept., 515–516
clinical results of, Sept., 516–518
complications of, Sept., 518
description of, Sept., 514–515; Dec., 638
in coronary angiography and left ventriculography, Sept., 526–528
in mitral regurgitation, Sept., 523
in Prinzmetal's angina, Sept., 521
indications for use, Sept., 513–514
nursing management of, Sept., 518–526
removal of, Sept., 528
Intrauterine pressure, monitoring of, Dec., 600–602
Intubation, nasogastric, in blunt abdominal trauma, June, 213
Isoproterenol hydrochloride, Sept., 483–484
in failure to pace, Sept., 412
Isuprel, Sept., 483–484
IUP (intrauterine pressure), monitoring of, Dec., 600–602

Jugular vein, pulses and pressures of, Sept., 429–430

Kidney, artificial, wearable, Dec., 639
transplantation of, March, 155–169. See also *Renal transplantation.*
K-pad, in neonatal thermoregulation, March, 27

Laboratory studies, in blunt abdominal trauma, June, 213–214
Lact-Aid nursing supplementer, March, 56–59
Lactalbumin, in milk, importance of, March, 48
Lactation, support of, during maternal-infant separation, March, 47–61
Lactobacillus factor, in breast milk, importance of, March, 48
Lactoferrin, in breast milk, importance of, March, 49
Lactose, in milk, importance of, March, 48
Lanatoside-C, Sept., 476
Language, basic ideas about, Sept., 544–545
neurophysiology of, Sept., 545–546
nonverbal, Sept., 552
Larynx, fracture of, June, 180
Lavage, peritoneal, in blunt abdominal trauma, June, 217–220
Leadership, nursing, conceptions of, Dec., 710–713
definition of, March, 104
effectiveness of, March, *141–152*
in critical care unit, March, 131–138
power and politics in, Dec., 711
problems in, Dec., 713–715
psychologic aspects of, Dec., 712
staff development for, March, 88, 103–109
theories of, March, *138–153*
Left ventricle, pacemaker electrode perforation into, Sept., *421*
Let-down reflex, March, 51
Leucovorin, data on, June, 316
for lung cancer, June, 313
Leukemia, chemotherapy for, June, 320
Leukocytes, in breast milk, importance of, March, 49
Lidocaine hydrochloride, Sept., 479–480
Life support, external, bioinstrumentation in, Dec., 638–639
Limitation intolerance, in renal transplant patients, March, 165
Linearity, of instruments, definition of, Dec., 576
Lungs, injuries to, Sept., 538
perforation of, pathophysiology of, June, 204–206
Lung cancer, diagnosis and prognosis of, June, 302–304
nursing care of, June, 301–318
stages of, June, 303
treatment of, June, 304–317
chemotherapy in, June, 309–317
patient education about, June, 311, 315–317
side effects of, June, 310–311, 315
types of, June, 312–314
radiation therapy in, June, 306–307
surgery in, June, 306–309
types of, June, 303–304
Lysozymes, in breast milk, importance of, March, 49

Management, nursing, administration role in, March, 121–122
clinical supervisors and head nurses in, March, 119–129
responsibilities in, March, 120–121

Mannitol, as osmotic diuretic, Sept., 492
Master's two-step test, Sept., 432
Maternal-infant bonding, after premature birth, March, 63–64
role of lactation in, March, 47–61
Measurement(s), characteristics of, Dec., 576
clinical, trends in, Dec., 635–638
distant transmission of, Dec., 636
Mechlorethamine, for Hodgkin disease, June, 293
Mediastinal emphysema, June, 201–210
esophageal injury with, June, 206–207
tension pneumothorax with, June, 202–206
Mediastinum, compartments of, June, 204–205
Medicine, traditional, holistic health vs., Dec., 646–647
Meditation, in stress management, Dec., 652
MER. See *Methanol extract residue.*
Meralluride, Sept., 489
Mercaptomerin sodium, Sept., 489
Mercumatilin sodium, Sept., 489
Mercurial diuretics, Sept., 488–489
Merethoxylline procaine, Sept., 489
Mersalyl, Sept., 489
Metabolism, disorders of, in apnea, March, 33–34
treatment for, March, 35–36
Methanol extract residue, of Bacillus Calmette-Guerin, for colon cancer, June, 373–379
dosage of, June, 374–375
expected reactions to, June, 375–377
nursing goals in, June, 378–379
side effects of, June, 377
sites for administration, June, 374–375
in cancer immunotherapy, June, 369–380
Methazolamide, Sept., 490
Methotrexate, data on, June, 315
for lung cancer, June, 312
mechanism of action of, June, 341
Methylclothiazide, Sept., 487
Metoclopromide, in stimulation of lactation, March, 51
Metolazone, Sept., 494
Microembolism, Swan-Ganz catheter use and, Sept., 405
Milieu, definition of, Dec., 665
unit, influence of group process on, Dec., 665–671
patient-staff interaction in, documentation of, Dec., 666–667
Milk, breast. See *Breast milk.*
Mitral regurgitation, intra-aortic balloon pumping in, Sept., 523
Mitral valve, opening snap of, auscultation of, Sept., 427
Mixed venous sampling, Sept., 392–393
Mobile Intensive Care Unit, June, 261–262
Monitoring, cardiovascular, in sick neonate, Dec., 603–604
during neonatal transport, Dec., 608
of fetus, equipment for, Dec., 600–602
of neonate, special considerations in, Dec., 599–600
of stress factors, Dec., 650–651
MOPP, for Hodgkin disease, June, 282
case history of, June, 287–288, 296–299
in adolescence, June, 321
Mother(s), of premature infant, psychologic tasks of, March, 63–64
of sexually abused children, role in group treatment, Dec., 704
temperature of, in fetal thermoregulation, March, 23
Mouth-to-mouth ventilation, Sept., 504–505
Multiple family group therapy, co-therapists' roles in, Dec., 693–697
goals and rules of, Dec., 687
pre- and postgroup meetings in, Dec., 691–693
with tri-therapist team, Dec., 685–699
Multiply injured patient(s), case history of, June, 189–190
drug abuse by, June, 189
initial assessment of, June, 177–190
Murmur(s), heart, evaluation of, Sept., 427–428
Muscle relaxation, in stress management, Dec., 651–652
Musculoskeletal system, of multiply injured patient, assessment of, June, 185–188
Mustargen, for Hodgkin disease, June, 293
Mustargen-Oncovin-Procarbazine-Prednisone protocol. See *MOPP.*
Myocardial infarction, information about, Sept., 468–469
patient teaching in, Sept., 457–472

Narcissism, of adolescence, chemotherapy effect on, June, 331–333
NEC. See *Necrotizing enterocolitis.*
Neck, anatomic boundaries of, June, 191–192
blunt trauma to, June, 191–199
case history of, June, 193–198

Necrotizing enterocolitis, March, 39–45
management of, March, 42–43
pathogenesis of, March, 39–41
radiographic findings in, March, 42
recovery from, March, 44
symptoms of, March, 41
Negotiation, nurses' role in, March, 87–88
Neonatal care, March, 1–84
bioinstrumentation in, Dec., 597–609
disadvantages of, Dec., 607–608
future of, Dec., 607
facilities for, March, 73–84
Neonatal Intensive Care Unit, regional, infant transport to, March, 3–11
Neonatal transport, March, 3–11
equipment for, March, 3–6
monitoring during, Dec., 608
preparation for, March, 5–7
Neonate(s), age of, assessment of, March, 13–22
care of, March, 1–84
classification of, March, 13–14
high-risk, breast-feeding of, March, 47–61
monitoring of, special considerations in, Dec., 599–600
morbidity of, March, 16
neurologic examination of, March, 20–21
resuscitation of, equipment for, March, 4–6
sick, bioinstrumentation of, Dec., 602–606
thermoregulation of, March, 23–28
problems with, Dec., 599
transport of. See *Neonatal transport.*
weight of, assessment of, March, 13–22
Neurologic examination, of neonate, March, 20–21
Neurologic system, chemotherapy effect on, June, 356
of multiply injured patient, assessment of, June, 182
Newborn. See *Neonate.*
Nitrogen mustard, for Hodgkin disease, June, 293
Norpace, Sept., 485–486
Nurse(s), appointment of, guidelines for, March, 97–98
as director of psychiatric intensive treatment unit, Dec., 673–683
as holistic health practitioner, Dec., 643–655
behavioral response of, in trauma situation, June, 252–253
bioinstrumentation for, Dec., 559–640
classification of, March, 96–97
education of, responsibility for, March, 99
head. See *Head nurse(s).*

Regional Trauma Center, design of, June, 256–259
development of, June, 255–265
staffing of, June, 259–260
transport system to, June, 260–262
Relaxation training, in brief therapy in crisis intervention, Dec., 660–661
muscle, in stress management, Dec., 651–652
theoretical basis of, Dec., 627–628
Renal dialysis, description of, Dec., 638–639. See also *Hemodialysis.*
Renal transplantation, nursing role after, March, 155–169
patient concerns after, March, 159–168
Reproductive system, female, cancer of, Adriamycin for, nursing care plan in, June, 364–366
nursing process and chemotherapy for, June, 351–368
Respiration(s), control center for, March, 30–31
Respiratory system, care of, in burns, June, 224
of multiply injured patient, assessment of, June, 178–180
of sick neonate, evaluation of, Dec., 605–606
Response latency, in aphasia, Sept., 550–551
Resuscitation, mouth-to-mouth, Sept., 504–505
of infant, equipment for, March, 4–6
Reticuloendothelial system, chemotherapy effect on, June, 353
Rib fractures, Sept., 535
Right atrium, pacemaker electrode displacement into, Sept., 419
Right heart catheterization, Sept., 389–407. See also entries under *Swan-Ganz catheter.*
Right ventricular outflow tract, pacemaker electrode displacement into, Sept., 419
RNA, chemotherapy effect on, June, 357–359
Rule of Nines, June, 228

Sarcoma, osteogenic, in adolescence, chemotherapy for, June, 321–322
Secretory-gamma A, in breast milk, importance of, March, 49
Self-image, of renal transplant patients, March, 166
Self-talk, in aphasia, Sept., 551
Sensitivity, of instruments, definition of, Dec., 575
Separation-individuation process, in adolescence, chemotherapy effect on, June, 327–330
Sepsis, and apnea, March, 33–34
  Swan-Ganz catheter use and, Sept., 405
Sexual abuse, of children, group treatment for, Dec., 701–705
Shock, Swan-Ganz catheter in, Sept., 393
Signal modifier, function of, Dec., 563
Signal-to-noise ratio, Dec., 576
Single needle dialysis, Dec., 620–623
Sinus arrest, ambulatory electrocardiography of, Sept., 441–443
Skin, chemotherapy effect on, June, 355
Sleep, cardiac activity during, Sept., 444
SND (single needle dialysis), Dec., 620–623
Social Readjustment Rating Scale, June, 248–249
Speech, rate and tone of, in aphasia, Sept., 552
Spironolactone, Sept., 492–493
Squill, Sept., 476
Stability, of instruments, definition of, Dec., 576
Staffing, of Regional Trauma Center, June, 259–260
Starling's law of the heart, Sept., 390
Sternum, fracture of, Sept., 536
Steroid antagonists, Sept., 492–493
Streptozotocin, for Hodgkin disease, June, 294
Stress, and holistic health, Dec., 653
  burns and, June, 231–232
  factors causing, monitoring of, Dec., 650–651
  group process and, Dec., 669–670
  impact of, in trauma patient, June, 247–249
  management of, Dec., 649–652
Strike(s), alternatives to, March, 114
  by nurses, March, 115–117
    administration role during, March, 127–128
Strophanthus, Sept., 476
Supervisor(s), clinical, role of, during nursing strike, March, 127–128
  in management, March, 119–129
  traditional, March, 121–122
Swan-Ganz catheter, Sept., 389–407
  cardiac catheterization vs., Sept., 399
  care and maintenance of, Sept., 400
  description of, Sept., 394–396
  history of, Sept., 389–390
